*March is the month that we promote literacy and numeracy in our communities and around the world. Giving young and old alike the gift of reading provides freedom, dignity and power to grow and realize their full potential. Encourage members of your families to read and read to your young children and grandchildren at every opportunity to help them develop a love of reading.*

## Joe Franceschini “Up the Lake”

Our speaker on 10 March was Joe Franceschini, long-time resident of Cumberland and author of the book: *Up The Lake*. Joe described the events that led the writing of the book. It started when he received a call from a boyhood friend, Ray Walker, following the tsunami of 26 December 2004. Ray

asked Joe if he'd ever recorded the experience that they had had during the earthquake that hit the Comox Valley on 23 June 1946. Jack Monks, also a resident of Cumberland, showed Joe a collection of old photographs from that period and that spurred Joe into action and he began writing his book. As a fifteen-year-old boy, Joe, with Ray and Paul Pezel set out to the top end of the lakes “skinning” cascara bark to sell to a broker to be used in medicine.. They set out on Friday, 21 June 1946. the earthquake hit on Sunday, 23 June as the boys were launching a raft they had crafted to journey to the area where the cascara trees were. Suddenly, the ground began to shake, an avalanche started down the side of Rough and Tumble Mountain. A miniature tsunami of about four feet high started and carried the boys away from the beach and into the bush. The boys survived the experience without injury. Needless to say, though, they were shaken by the experience. Read more in Joe's book, on sale at the Cumberland Museum.

### RI Committee Seeks to Mobilize African Rotarians By Ryan Hyland

A young girl waits outside a feeding center in Niamey, Niger. Reach Out to Africa, an RI committee, was formed to promote collaboration, increase service projects, and boost Rotary club membership in Africa. Rotary Images/Alyce Henson Four African countries will each receive 20 incubators purchased by Rotarians in India as part of a project supported by Reach Out to Africa. Rotarians involved in the initiative worked with local clubs to raise funds for transportation and port charges, which will help the infant incubators arrive in Ethiopia, Nigeria, Tanzania, and Uganda by 30 June. Reach Out to Africa, an RI committee, was formed to promote this kind of collaboration, to increase service projects, and boost Rotary club membership on the continent. "Africa has always been full of challenges, where the needs surpass the resources," says Past RI Director Örsçelik Balkan, a member of the ad hoc committee overseeing the initiative. "Reach Out to Africa's aim is to essentially give clubs and districts the guidance, advice, and resources they need to execute the best possible service projects," he explains. "Activities like the incubator service project will lead to a reduction in child mortality," says Balkan. "This is an example of the initiative helping local Rotarians practice teamwork." Originated by Past RI President Wilfrid J. Wilkinson's advisory committee, the ad hoc committee consists of four regional subcommittees that cover eastern, western, southern, and northern Africa, and another subcommittee made up of Rotarians from around the world who have participated in successful projects on the continent. The regional subcommittees identify the needs in their area, while the last subcommittee finds project resources from local and international Rotary clubs and organizations. Reach Out to Africa will focus on projects related to water, health, literacy and education, economic empowerment, children's welfare, and disabilities. Balkan says that increasing club membership in Africa is vital to the initiative's long-term success. The committee is striving to help African clubs and districts meet RI President Dong Kurn Lee's goals of a 10 percent net increase in membership and at least two new clubs per district. It would also like to boost African clubs' participation in programs such as Ambassadorial Scholarships and Rotary World Peace Fellowships. As one of the largest RI committees, it has the flexibility, experience, and capability to help clubs and districts carry out service projects, says Balkan. "We encourage all clubs to be proactive," he says, adding that the committee can be used as "a tool to help accomplish the best service projects in Africa. Rotary now has a great opportunity to reach our destiny and Make Dreams Real for all people in Africa." Source: Rotary International News Courtesy: eFlash\_Rotary

### Oops!

A cowboy appeared before St. Peter at the Pearly Gates.

"Have you ever done anything of particular merit?" St. Peter asked.

"Well, I can think of one thing," the cowboy offered. "Once, on a trip to the Black Hills out in South Dakota, I came upon a gang of bikers, who were threatening a young woman. I directed them to leave her alone, but they wouldn't listen. So, I approached the largest and most heavily tattooed biker and smacked him in his face, kicked his bike over, ripped out his nose ring, and threw it on the ground. I yelled, "Now, back off!! Or I'll kick the #\$\$%)@ out of all of you!"

St. Peter was impressed, "When did this happen?"

Just a couple minutes ago..."
